

Curriculum Tip: Using SchoolRooms to Support Standards

How can you use SchoolRooms to find information that supports a South Carolina academic standard? Teachers can use these resources for lesson plans and classroom activities, and students can find information to complete projects, reinforce learning, and obtain study materials.

Take these two middle school Performing Arts standards as an example:

Theatre Standard VII. VALUING AND RESPONDING. Analyzing, evaluating, and constructing meanings from improvised and scripted scenes and from theatre, film, television, and electronic media productions.

(6-8th grades)

B. Analyze and critique theatrical publications and dramatic texts.

C. Analyze and critique theatrical productions, both live and electronic.

You can find resources in several ways within SchoolRooms. Try searching for keywords such as **responding to plays, analyzing plays, and writing a review.**

You can also find great information by browsing. Start with the Middle School link on the left side of the screen, under the title "Explore a Room."
